

**Bridging the GAP**  
Educational Assistance  
**Science Technology Engineering Math (S.T.E.M.) & Reading**

February 16, 2022

Dear Parents,

We are planning an off-campus excursion to John C. Stennis Space Infinity Center located in Hancock County, MS along the banks of The Pearl River in Pearlinton MS.

At the Infinity Center, we plan to tour the massive facility, participate in hands-on science-based learning activities, view Apollo 4 artifacts and gain first-hand knowledge about space exploration. Additionally, we will visit the swamps, bayous, watch scientific 3-D movies and a whole lot more.

Below are details necessary for your child(ren) to successfully participate in this event:

- Permission slips signed by parents/guardians
- 7:45 am meet up for departure from Bridging the Gap Afterschool Program site (Victorious Life FWC – 8896 Richmond Dr.)
- 4:00 pm return to Bridging the Gap afterschool Program site and pickup time
- A snack will be provided; however, parents are encouraged to supply their child(ren) with money as we will stop for lunch and the kids may want to purchase souvenirs at the Infinity Center

We are standing in great expectation for a wonderful event and expect that your child(ren) will leave the facility with additional knowledge that will serve them for the rest of their lives.
